

## Handling Your Enquiry or Complaint

## Our Values

The Phoenix Values are at the heart of how we do business. Embedded across our business, they are the standards we hold ourselves and our employees to in delivering the best possible outcomes for our customers and the communities we serve.

## Meeting the needs of all consumers

As an essential service provider, we play an active and critical role in the lives of local communities, working with domestic and business users, members of the public and community representatives. We strive to deliver the best possible standards of service to all while continuing to invest in and develop our services in line with customer needs.

We recognise that there may be times when some consumers will need additional and specific support from us. We are committed to working with consumers directly to ensure a truly inclusive approach to customer service that is designed to identify consumers with specific needs or in vulnerable situations and, in turn, ensure we suitably shape our service delivery in a way that is most relevant to meet their needs. Find out more about how we meet the needs of all consumers at the **Customer Support** section of our website.

And did you know that once connected to our network, domestic gas suppliers operate a range of services to meet the differing needs of energy users. If you are already a gas user, you should check out these schemes with your supplier to see if you might be eligible.

## **How to make an enquiry or lodge a complaint**

We don't always get things right, and when we don't, we like to know so that we can improve our service in the future.

In the sections to come (and in accordance with **section 3 of our Code of Practice for the handling of complaints**<sup>1</sup>), we provide you with everything you need to know about making an enquiry. We also describe our complaints handling procedure if you wish to lodge a complaint.

Our Notice of Rights explains the individual standards of performance you can expect from us including how we handle your complaint and outlines the compensation you could receive if we fail to deliver these standards.

Our Notice of Rights and Standards of Service documents can be accessed on our website at [Our Standards Of Service](#).
