on our
works plan

Dear Occupier,

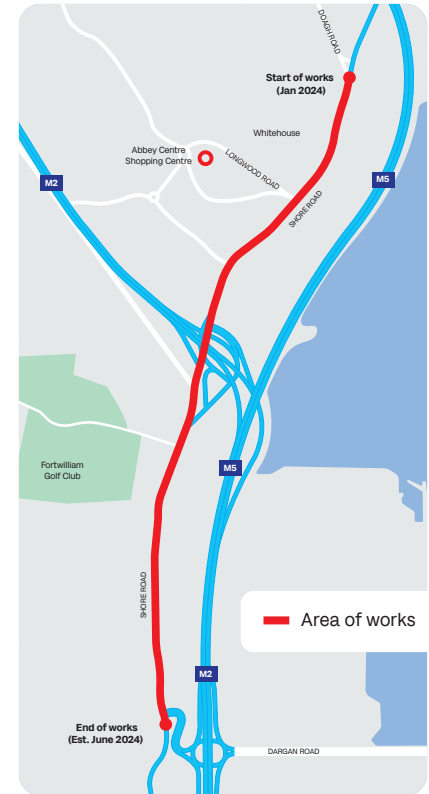

Phoenix Energy are carrying out essential reinforcement of our network on the A2 Shore Road. This is to ensure that we continue to meet the needs of our growing and existing customer base now, and into the future.

On 8th January, work will commence on the Shore Road (from the Doagh Road junction), and will continue in the areas noted on the map until June 2024. We encourage you to keep up to date with progress and upcoming areas of work on our website phoenixenergyni.com/shoreroadreinforcement, to best inform your travel arrangements in this area.

We have, and will continue to, engage with the Department for Infrastructure, public representatives and members of the public, to identify opportunities to continue minimising the impact on journey times.

We would like to thank you for your patience and understanding during this final phase of network reinforcement in this area.

If you are a business or service provider with a specific concern about the works, please do not hesitate to get in touch with us on info@phoenixenergyni.com

Please note this map highlights the totality of the works, and work will be carried out in smaller sections, with varying traffic management arrangements in place.
